COMMERCIAL AND FINANCIAL

Righ Price of Corn Tempted Holders to Unload Yesterday.

WHEAT WAS QUITE ACTIVE EARLY

That Cereal Was Inclined to Fluctuate with Corn, the Early Decline Being Due to that Influence-Stocks and Bonds.

CHICAGO, Aug. 3.- The high price of corn tempted holders to unload today and the market declined in consequence, closing 14c lower for September. Wheat went down in sympathy with corn, losing %c, but oats were firm, closing 1/4c higher. Provisions finished at an advance all round,

Wheat was quite active during the first hour, but later only ordinary interest was displayed. The feeling was a little easier. Initial transactions were the same to a fraction as the final figures of yesterday, with September at 54%c, and soon sold down %c, railled from 14c to 14c, changed some and closed at 53% for September. The market was inclined to fluctuate with corn, the carry decline being due to that influence, though the liberal receipts, both here and in the northwest, were something of a factor. There was fairly good buying on the decline, and when corn advanced wheat followed, cables, as was expected, helping the advance to some extent. There was said to be an active demand for vessel room at Toledo to load wheat to this point, but rates were advanced and nothing of consequence was transacted, though it was rumored at one time that 160,000 bu, had been taken. The export clearances of wheat and flour were light and aggregated 261,000 bu., of which 78,000 bu. were in flour. The weather in England was

Corn was active and unsettled. The feeling was nervous and prices fluctuated sharply and frequently within from 1%c to 1%c range. Initial transactions were at the same to '4c under yesterday's closing, at 4914c for September, and sold up a trifle, broke sharply, then sold off 1%c for September and 1%c for May, railied nearly as quickly, recovering the break, eased off from %c to %c, changed some, ruled irregular, and closed with September at 49½c. There was evidently a desire on the part of some of the larger holders to unload today, and offerings were very heavy during the first half hour, several large concerns selling freely, which started the smaller holders to realizing, and as there wes less support from the outside the price declined rapidly. On the break the demand improved, room traders who sold early en-deavoring to cover and found offerings very light. The price was suddenly advanced and helped along by the prediction of frosts tonight in exposed places in Iowa.

Oats declined early on the break in corn, but reacted later on good buying. The market was fairly active, with a range of %c Provisions were generally firm on better prices at the yards and good buying. Offer-ings were scarce and the close was near

the top.
Compared with last night September pork is 2214c higher, September lard is 15c higher and September ribs 714c higher. Freights slow at 74c for corn to Buffalo

and %c to Port Huron. The leading futures ranged as follows:

OMARIA GENERAL MARKETS.

Condition of Tride and Quotations on Staple and Pancy Produce. The egg market continues very firm, and it is safe to quote prices in higher. Receipts continue light, with the demand fully up to the

The poultry market is very weak and prices

The poultry market is very weak and prices are the hwest that they have been this summer. At the same time the demand is light and receipts fairly liberal.

The butter market is firm at steady prices. The report of the dry weather and consequent short pasturage in the west is worrying eastern butter men, as the following from the New York Buffetin would indicate: Receivers of butter on the West Side are considerably anxious over the results of the present severe draint throughout the butter belt of the west. The butter belt embraces northern Illness, southern Wisconsin, central Minnesotn, Iowa, Nebraska, northern Kanssa and a pyrition of Dukola. Throughout these states the drouth is reported to be unusually severe this year, and the shrinkage in the crop of butter is said to be very large. From letters received by commission nen from makers in producing sections, competent judges place the shrinkage as high as 59 per cent of a normal make, while more conservative estimates place the shrinkage at 25% per cent of a formal make, while more conservative estimates place the shrinkage at 25% per cent of a formal make, while more conservative estimates place the shrinkage at 25% per cent of a formal make, while more conservative estimates place the shrinkage at 25% per cent of a formal make, while more conservative estimates place the shrinkage at 25% per cent of a formal make, while more conservative estimates place the shrinkage at 25% per cent of a formal formal formal the substant particular than the substant passible for the cows to get feed. They are drying up rapidly, and even if the weather should become much cooler at the time of writing it would fake several weeks before we could asske any butter for the eastern market. The pastures have been burnt brewn with the heat."

An ther producer in Nel raska telegraphs that the time could the substant in the shade, and that it is impossible for the cows to obtain

preferred moving up 1 per cent. Subsequently there was a fractional reaction, due

temperature there is 110 degrees in the shade, and that it is impossible for the cows to obtain sufficient grass.

Such is the tener of the letters received from the west, which are causing anxiety in this market. A well known receiver here was asked as to the probable outcome. "It is hard to say. My western advices indicate an unusual state of affairs in the producing sections. We started in the let of June with a large make, but it has shrunk very rapidly during the past few weeks. During the recent railroid troubles considerable butter was stored in the smaller towns of the west for lack of transportation facilities, but to offset this eastern markets, finding their escrives in storage, so we are feeling the full effects of the shortage just the same. It must be borne in mind, however, that in many sections the coin crop is ruined, and on this account the stalks will be used as folder for the cows, so that it will not be all loss. Another thing to be remembered by buyers is that it is under such circumstances as the present that western manipulators get in their fine work, and with some basis of truth they issue such reports as to bull every market in the country. It is always hot in the summer and the make always shrinks materially, and we should be cautious how we receive news from interested western

speculators."

Parter Bros., New York, sold ten cars of California fruit at auction today: Bartlett pears, \$2.1942.69; Howell pears, \$1.45; Crawford peaches, \$2.1942.69; Howell pears, \$1.45; Crawford peaches, \$1.6641.129; Bernards, \$1.0941.16; Bradshaw plums, \$1.25; Bernards, \$1.0941.16; Bradshaw plums, \$1.641.15; Magnumbonums, \$1.25; Purple Duanes, 90c441.00; Burbanks, 70c441.55; Washingtons, \$1.1641.69; Brigg plums, \$1.00.61.46; McLaughlin, \$1.05; \$1.30; half crates Fontainebleau grapes, \$1.10.

Minneapolis Wheat Market.

MINNEAPOLIS, Aug. 3.—Wheat today was unsettled within a narrow range, closing 4c lower than yesterday, while cash wheat sold at yesterday's prices and closed the same. A few cars of wheat are coming in daily, but not enough yet to affect the market. It is too early yet to know whether farmers will sell freely or not, but from past experiences it is believed that they will sell readily even at the present low prices. Receipts were larger and amounted to 112 cars, with 23 cars shipped. The demand for if on track was only fair. There was no one who wanted to put in store, but local milers bought the best and shippers the poorest. The larger millers have plenty of old wheat in store to grind, leaving none absolutely in want of wheat on track except a few millers who depend on buying daily for their current use. Close: August, 55%c, September, 52%c, December, 53%c, On track; No. 2 hard, 58%c, No. 1 northern, 57%. No. 2 northern, 58%c, Recipits were 11,800 but; shipments, 14,939 but, Flour was steady, with a demand equal to the supnly, and productions of about 27,600 bits, for the 24 hours; shipments, 29,463 bits; patents, 43,2092.45; bakers, 42,0092.25.

CATTLE TRADE SHOWS SOME IMPROVEMENT

Some Beef Steers Received and Sold at Highest Prices Recently Paid-Hogs Advance from Five to Fifteen Cents and Sell Briskly.

were fairly firm during the morning, it was not until after 2 o'clock that they made any material appreciation, but under the buoyancy imparted by the Sugar boom the; 1-se sharply, selling up from the lowest point of the day 1½ per cent for Northwestern and St. Paul, % per cent for Burlington & Quincy and Rock Island, 1½ per cent for chicago Gas and Louisville & Nashville and 1 per cent for Distilling. Some of the specialties also shared in the advance, Kansas & Texas preferred moving up 1 per cent. Subse-FRIDAY, Aug. 3. The receipts today in round numbers were 800 cattle, 5,800 hogs and 485 sheep, as against 1,445 cattle, 13,000 hogs and 51 sheep on Friday of last week. For the week thus far there have been received 7,600 cattle, 59,250 hogs and 1,678 sheep, as against 9,447 cattle, 51,246 hogs and 1,328 sheep for the same days of last week. In spite of the light receipts today, 8,000 more hogs have been received this week than last. While the packers are killing both cattle

quently there was a fractional reaction, due to realizations, final dealings showing a partial reaction, the market closing at or near the best prices of the day.

The bond market was strong all day:
The Evening Post says: The underground information which guides the operations of powerful speculators was undoubtedly responsible for today's stock market. Whatever the immediate motive may have been. and hogs, their operations are necessarily limited by the strike. The fact that they bought some stock today would seem to indicate that they have hopes of the old men going back. In that case there would, withever the immediate motive may have been, the course of prices in the last two hours left little doubt that the bear party, which out doubt, be an immediate demand for stock, but until the strike is finally se tled there for a week past has controlled the market, was now in full retreat. Not until the closmust of necessity be a good deal of uncertainty regarding the market from day to day ing hour was the purchasing power of the week's bear speculators turned full upon the

CATTLE-For the first time in- several days there were a few pretty good corn-fed steers in the yards. There was no shipping demand, but local packers wan'ed a few cat-tle and there was a stronger feeling to the market. Packers appeared to be buying in anticipation of a possible settlement of the disputes with their employes. One bunch of 1291-lb cat'le brought \$4.40, the highest price realized in several days. There were only a few really good cows in the yards and there was a pretty fair demand, though limited. In consequence, the market was stronger on such and on the best grades 10c to 15c higher. The common grades did not show much if any change. There was some little trading in stockers and feeders. The supply is much lighter than it was a few days ago, and, as the demand is fully as good, if not a little better, there is a better feeling in the market. A few loads sold at \$2.25 to \$2.40. HOGS-The decrease in the hog receipts by about one-half, as compared with yester-day, and the fact that one of the packers was quite a liberal buyer, put the hog market in much better shape. There were, however, a good many holdovers, but the demand was sufficiently heavy to clean up everything that was of any account. There was an advance of from 5c to 10c on the better grades of heavy and butcher weight hogs, while the advance on the commoner hogs, which sold extremely low yesterday, was even greater, amounting to all of 10c to 15c. The best hogs sold largely at \$4.65 to \$4.75, with \$4.80 the top. The commoner light and mixed brought from \$4.40 to \$4.60, while the trashy stuff went at still lower prices. Represent

NEW YORK, Aug. 3.—BEEVES-Receipts, 4,000 head; on sale, 20 cars; market uneven; good earlie slow; barely steady; common to modium active and 80c higher; native steers, choice, 84.75; good to strictly prime, 84.55g/t-67; medium to fair, 84.90g/t-62; common to ordinary,

13.8064.23%; very poor, \$3.80; European cables quisted American steers at \$1,00% per lb., dressed weights; refrigeratar beef at 69% per lb., no experts today, temorrow, 2.600 beever and 4.040 quarters of beef.

CALVES - Receipts, 137 head; on safe, 625 head; market very dull; but little doing: prices about steady; venis, good to prime, \$4.50%, 20; prime buttermilk caives, meminally quated at \$2.8 HEEF AND LAMISS-Receipts, 6.279 head; on sale, 55 cars; no improvement in demand; choice tresh lamis, \$4 higher; others barely strady; over 7,000 head unsuld; sheep, fair to prime, \$2.50% 00 per 100 lbs.; lambs, common to choice, \$2.50% 1.50.

HOGS-Receipts, 3.796 head; market steady; good begs, \$5.55.

CHICAGO LIVE STOCK MARKET.

There Was No Noteworthy Change in the Market Yesterday. CHICAGO, Aug. 3.-There was no noteworthy change today in the market for any description of entile. Good to choice beeves, as on the prechange today in the market for any description of entile. Good to choice beeves, as on the preceding day, were in light supply, in good demand and strong. Exporters had orders to fill, and with a fair inquiry from eastern buyers and local dressed beef concerns the offerings of the right kind of cattle proved inadequate. The demand for common to fair grades was not a whit better than beef, but the decreased receipts prevented any further softening of prices. The estimated arrivals were 7,000 head, of which about 4,500 were native, 500 western and 2,000 Teams. Natives were quoted at from \$1 to \$4.85, westerns at from \$2.50 to \$3.50 and Texans it from \$2.50 to \$3.50 for grassers. Not many sales were made above \$4.50.

There was a sharp reaction in the hog market. The increase in the receipts which it was supposed would result from the strike of the Omaha butchers did not materialize, and with only a few more hogs than came in last Friday and the stimulating influence of cool weather the market was brisk and higher. Heavy hogs sold up to from \$4.85 to \$5.25 (there were two trades at the latter figure), and light weights going to from \$4.85 to \$5.25 (there were two trades at the latter figure), and light weights going to from \$4.85 to \$5.15. The pens were emptied early, and the late sales gave sellers as good antisfaction as did those made earlier in the day. Although the quality averaged rather common, it is noted that sort showing an advance was the mest marked in the common to fair mixed lots, some of that sort showing an advance of loc.

the most marked in the common to fair mixed late, some of that sort showing an advance of life.

Good sheep and good lambs have been in small supply and prices have averaged a tritle firmer. In low grades there has been neither activity nor firmness. There is practically no demand for feeding purposes, and very few sheep are going eastward alive; therefore seilers have to look to the three big local shaughterers for the absorption of the receipts. There is very little competition between them, and prices remain almost unprecedentedly hower in spite of the continued light arrivals. Sales ran from \$1 to \$1.05 for rubblish to from \$3.25 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for \$3.50 for choice. Sales of lambs were at from \$2.5 to \$3.50 for light. The Evening Journal reports:

HOGS—Estimated receipts for today, \$2.50 head; official vesterday, \$3.33 head; elft over, about 7.000 head; \$4.50 for heavy packing and shipping lots; pigs. \$4.4564.70.

CATTLE—Estimated receipts for today, 7.000 head; yesterday, \$2.50 head; shipments vesterday, \$4.85 head; market steady; natives were guoted at \$1.5063.50 for grassers; not map sales were made above \$4.55.

SHEEP — Estimated receipts for today, \$3.00 head; yesterday, \$2.25 head; shipments yesterday, \$1.60 head; westerday, \$2.55 head; shipments yesterday, \$1.60 head; westerday, \$2.55 head; shipments yesterday, \$1.60 head; westerday, \$2.55 head; shipments yesterday, \$1.6

Total13,683 42,871 4,500 Wool Market. BOSTON, Mass., Aug. 3.—The American Wool and Cotton Reporter says of the wool market: There has been nearly 5,000,000 lbs. of wool sold since the 24th ult. The amount disposed of since January now exceeds by several million pounds the quantity sold in the corresponding

since the 24th ult. The amount disposed of since January now exceeds by several million pounds the quantity sold in the corresponding period of 1832. The tone of the market is very perceptibly stronger. Prices all around are lethigher than a fortnight ago; the decline is checked and an established price is more generally recognized than for a long time; this strength has continued for a fortnight with indications of permanency. At any rate it will require some very unusual occurrence to relegate the market back to the condition of a fortnight ago. Dealers are busy packing and shipping the wool that has been sold. It may be said that 75 per cent, at least, of the immense quantity of wool sold in the last two weeks was taken to satisfy an actual demand for stock. Manufacturers bought largely to cover goods sold, many of them having received reorders for heavy weights. Fleece wools are a full to per lb. stronger than they were two weeks ago. The demand is active; stocks are light. Upward of 1,000,000 lbs. of all kinds of fleece wool have been purchased in this market since the 24th ult. The call has been quite miscellaneous. The demand for territory wools has in no wise abated since our last review. Large sales have been made on the scoured basis of from 32 to 35c for fine and fine medium, and from 28c to 30c for medium. The sales of the week in Boston amounted to 4,837,850 lbs. domestic and 100,000 lbs. foreign, making a total of 4,937,850 lbs., against 74,587,050 lbs. a year ago. The sales for the corresponding week last year. The sales since January 1, 1894, amount to 78,034,185 lbs. against 74,587,050 lbs. a year ago. The sales for the week in New York aggregate 1,780,000 lbs. The sales for the week in New York aggregate 1,780,000 lbs. St. LOUIS, Aug. 2.—WOOL—Steady and firm
